

As a legacy of the 2012 Olympic games, the government provides additional PE & Sport funding to sustain and improve the provision for physical education (PE) and sport in primary schools. Schools must spend the additional funding on improving their provision of PE and sport, but they have the freedom to choose how they do this. This statement outlines how we have invested our funding and the impact of our previous years expenditure.

At our school we are committed to ensuring our children understand the importance of being active, having a healthy lifestyle and enjoy sports and games activities.

In 2018/19 we will invest this money in:

- Providing continuing professional development for our teaching staff by giving them the opportunity to work alongside a specialist PE teacher, developing their skills and subject knowledge.
- Employing a cycling manager and maintain a set of bicycles to ensure that all our pupils are able to cycle safely and take part in local events and competitions.
- Pooling the additional funding with our partner schools to further develop our curriculum, enable interschool competition and share resources.
- Providing pupils with opportunities to take part in a wider variety of sports and outdoor activities which would not usually form part of a primary curriculum, inspiring interest and aptitude in a range of disciplines.

### Sports & PE Funding 2017-2018

Number of pupils and sports funding received	
Total number of pupils on roll eligible for Sports & PE Funding	237
Amount received per pupil	£55.46
<b>Total amount received</b>	<b>£18,469</b>

### Deployment

The following costs are not exact but a near estimate at the time of calculations.

Use of funding (Please see attached breakdown of Expenditure)	Total amount of funding allocated to Sept 18-Mar 19	Total amount of funding allocated to Apr 18-Aug 18
Hiring specialist PE teacher (James Mulvany)	£3,413	£2,438
Providing cover to release primary teachers for professional development in PE and sport	£2,205	£1,575
Teaching Resources to help teachers to teach PE and sport	£630	£495
Providing places for pupils on the Cycling Club and cycling activities	£3,152	£2,412
Providing a range of coaches and activities during our Keeping Healthy Week.	£1,100	£1,050
<b>Total expenditure</b>	<b>£10,500</b>	<b>£7,969</b>
<b>Overall Total Grant expenditure</b>		<b>£18,469</b>

## **Impact**

The school will measure the impact of the sports fund grant spending at the end of 2018/19 through pupil interview, evaluations completed by the sports coach and analysis of attendance at clubs and activities.

### **Impact in 2017/18:**

- All of our class teachers had the opportunity to work with our specialist sports coach to develop their skills in teaching physical education including 1:1 coaching and whole school training. A log of the areas covered demonstrates a wide range of skills and techniques being shared and modelled with teachers showing increased confidence in teaching key skills in these areas and teaching from our school curriculum.
- We have sought feedback from teachers regarding the effectiveness of our PE curriculum and have further reviewed and developed our scheme of work to ensure its relevance and effectiveness. Teachers are teaching a range of skills confidently.
- All pupils took part in a Keeping Healthy Week which provided opportunities to take part in activities such as archery, fencing and basketball, as well as athletics, team games and healthy food workshops. The pupil evaluations of this week were overwhelmingly positive.
- Successful inter-school sports competitions were organised by the specialist teacher which led to our pupils competing with children from other schools in different sports.
- Lessons were well equipped, and our main playground was remodelled to allow for a greater range of team games. Equipment was purchased for tennis and badminton courts which are enjoyed by pupils every breaktime.
- All our pupils in Year 4 attended weekly swimming lessons at a local swimming pool.
- Affordable after School clubs run by sports coaches in ballet, street dance, kung Fu, football and cycling as well as a cooking club were run every week and very popular. Pupil evaluations were highly positive and these sessions were made accessible for all through subsidised pricing.
- 84% of responses to the 2017 parent survey agreed that the school encouraged their child to exercise or participate in healthy sports, and 74% that the school encouraged their child to eat and drink healthy things.
- 100% of responses in our 2018 Year 6 exit survey responded positively to the statement 'The school has taught me about healthy living.'
